The following is an examiner's statement of reasons for allowance: The applicant should note that all of the independent claims require that the canister be located either "in" or "within" the fuel filler tube. This language is used in the specification to describe all of the embodiments except the Figure 4 embodiment. In Figure 4, the canister is described as "integrated into" the fuel filler tube but not "in" or "within" the tube. Finally, none of the dependent claims contains limitations that are specific to the Figure 4 embodiment. For these reasons the allowed claims have all been interpreted as requiring that the canister be located inside all walls of the filler tube and not within possible plural walls of the tube. Thus, the allowed claims are not generic to the Figure 4 embodiment and the claims are not anticipated by, or made obvious in view of, the teachings of Uranishi or Tanahashi - both of which include embodiments that show canisters "integrated into" the walls of fuel filler tubes but not "in" or "within" those tubes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
